Objective

Motivated and detail-oriented professional with strong organizational and communication skills. Seeking to become a team member withing your organization, work hard and contribute to the company's progress and goals.

Experience

2023 - 2025 Maintenance Technician - Evisceration 1st Processing | Fieldale Farms | Murrayville, GA

- Maintenance support where I was responsible for Cropper, Neck-Breaker, Bird-Washers, and Draw Machineries. I conducted preventive maintenance on evisceration machines, Turn-wheel greasing and rebuilds for main lines and various other duties in support of Fieldale's processing lines. This was a full seven-day work period, as the demand required; Production line installations and outdated equipment removal.
- Additionally, I started on the Production line where I was responsible for cutting and inspecting poultry products moving down the line through various processing locations; Sort, Quartering, and Salvage.
